

Enzymes

Digestive Health

90 V-Caps

WHY ENZYMES?

Your body makes enzymes to help digest your foods. Raw fruits and vegetables and other natural foods also contain enzymes that aid digestion. Your body produces much less enzymes as you age or become stressed in various ways. This means you don't get optimal energy and health benefits from your food.

Our enzymes are vegetable based for optimal absorption. Our formula also contains a proprietary blend of herbs to help soothe the stomach and repair damaged mucosal lining that may cause digestive problems.

RECOMMENDED INSTRUCTIONS: Take 2 V-Caps before each meal.

For gastric discomfort at night or between meals, you may take additional V-Caps. *Contains no sugar, fillers, binders or chemical additives.*
